a Giuseppe e Giovanni

Tutto iniziò nel 1899...
Everything has begun from 1899...

La storia di "Banci" comincia a Firenze nel 1899, con il lavoro di un artigiano che restaura specchi e lampadari per gli antiquari del quartiere di Santo Spirito e per le nobili dimore del centro storico.

Giuseppe, il fondatore, ha due figli che tra gli anni Trenta e Quaranta consolidano l'attività di restauro ed avviano la produzione in proprio. Gastone viaggia molto, comprando vetri e cristalli; Gina, invece, tesse e monta i materiali nel laboratorio, e crea i primi lampadari Banci. La prima bottega è in Borgo San Jacopo, la strada alla quale tutt'oggi la famiglia rimane legata con un prestigioso negozio che dà sulle sponde dell'Arno.

Nel tempo, al colpo d'occhio ed al tocco artigianale si unisce la strategia industriale. E la creatività dei disegni, la qualità dei materiali, l'eccellenza nella fabbricazione danno vita a dei prodotti di successo, che a partire dagli anni Sessanta si diffondono in tutto il mondo. Ma è con la terza generazione, cioè con i figli di Gastone, che l'azienda diventa leader nel settore dell'illuminazione decorativa di interni, facendo leva su personale qualificato, che si riconosce nel proprio lavoro, ed insieme ad un sapiente, controllato coinvolgimento della tecnologia. Ne nascono dei pezzi unici, prodotti completamente in Italia; lo stile è prevalentemente classico, ma con significative esperienze di moderno design.

Banci è presente nei migliori negozi di arredamento e di illuminazione, così come in numerosi ristoranti ed alberghi, in Italia e nel mondo. Nelle pagine di questo catalogo è viva l'identità di tutta la sua vasta produzione: la sintonia di gusto, passione ed iniziativa che ancora oggi, dopo oltre cento anni, guida i nipoti e pronipoti di Giuseppe Banci.

The story of "Banci" begins in Florence in 1899, with the work of an artisan, Giuseppe, who restored mirrors and chandeliers for the antiquarians of "Santo Spirito" neighbourhood and the noble residences of the city centre.

Giuseppe, the founder, had a son, Gastone, and a daughter, Gina, who, between the 1930's and the 1940's, continued to restore antiques and began to produce their own fixtures. Gastone travelled a lot, buying unique glasses and crystals; Gina, worked in the workshop, joining the various elements and creating the first "Banci" chandeliers.

The first workshop was in Borgo San Jacopo, where the family still has a prestigious showroom with a wonderful view of the Arno river. Over the course of the time, creativity and intuition were combined with manufacturing skills to produce a large collection of fine lighting and complimentary items. The combination of design, quality of material and manufacturing excellence have resulted in the Banci collection that, already from the 1960's, start to become popular all over the world.

But it's with the third generation, Gastone's sons, that the company leads the market in decorative home lighting, thanks also to its specialized and motivated staff and to an attentive check of technology.

This is the result: original and unique pieces, mainly classic, but with important and successful experiences in the contemporary, all completely hand made in Florence, Italy. The Banci collection is available in the world's finest furniture and lighting showrooms; examples of projects from the Banci contract division are found all over the world in exclusive resorts, hotels, and fine restaurants. This catalogue expresses the passion and spirit of the family tradition which began over 100 years ago.

We hope you enjoy it.
