VILLA SANTA VITA UMBRIA

# Introduction

Bella Figura is one of the world's leading decorative lighting suppliers

Founded in 1982, the company specialises in designing and manufacturing decorative lighting of the very highest quality out of the finest materials. All of our products are manufactured exclusively in Europe. We make many of our products in our own artisan workshop in England, but the majority of our range is made to our design and specification by specialist manufacturers in Italy, where traditional manufacturing skills are complemented by world class design

Over the last 30 years Bella Figura has established a reputation for designing and manufacturing lighting of unsurpassed style and quality. The Company specialises in Venetian glass and Florentine metalwork and now has one of the widest range of these handmade artisan products available today

In the UK, Bella Figura has two trade showrooms in London and the company's manufacturing, warehousing and administration are based at Melton, Suffolk in the heart of the English countryside. In North America, Bella Figura is distributed in almost every major Design Centre and the Company has a growing business in Europe and the Rest of the World through both designers and retailers. Bella Figura has an unrivalled client base, which includes many of the world's leading interior designers, architects, property developers, retailers, luxury hotel groups and wealthy private clients

Lighting is often overlooked in interior design and yet it is arguably the most important aspect of any room. The right lighting makes a beautiful interior glow. Lighting from Bella Figura not only provides the perfect illumination – it also combines sculpture and art to enhance any interior. We hope that our new catalogue provides you with inspiration and ideas to "light up your life"

All of the location shots in this catalogue were photographed in Italy where the light is truly exceptional

# Contents

Welcome to Bella Figura's new catalogue

The catalogue is laid out by product category with co-ordinating products cross referenced

# Chandeliers and Ceiling Lights

## **Venetian Collection**

**pages 8-29**

Bella Figura has been famous for its timeless Murano glass collection for 30 years. This extensive collection of chandeliers focuses mainly on designs which are transitional in style and can therefore be used in any room setting - whether traditional or contemporary. A particular feature of the collection is that the chandeliers are available in a large number of different sizes as standard, which often eliminates the need for bespoke manufacture

## **Crystal Collection**

**pages 32-41**

A collection of beautiful crystal chandeliers. With a choice of either Murano glass or metal frames, all the designs are fitted with lead crystal drops as standard, which can be upgraded to Swarovski crystal if desired

## **Retro Murano Collection**

**pages 44-53**

This unique collection of ceiling lights has been inspired by the archives of Italian designers from the 1950s, 60s and 70s

## **Massimo Tonetto Collection**

**pages 54-57**

A collection of more contemporary ceiling pendants and matching wall lights designed in Italy by the famous designer Massimo Tonetto and handmade in Venice

## **Florentine Collection**

**pages 58-73**

Beautiful timeless classics from Florence in the heart of Tuscany. Bella Figura's exclusive designs are hand-made for us by Florentine artisans out of metal and wood utilising skills and techniques handed down from generation to generation since the Middle Ages

## **Lantern Collection**

**pages 74-87**

From the traditional to the more contemporary, Bella Figura's Lantern collection offers a wide range of styles from this ever popular design classic

# Wall Lights

## **Venetian Collection**

**pages 90-101**

Our extensive collection of Venetian wall lights focuses mainly on designs that are transitional in style and can therefore be used in any room setting whether traditional or contemporary. All of the designs have co-ordinating chandeliers

## **Crystal Collection**

**pages 102-107**

A collection of beautiful crystal wall lights, which co-ordinate with matching chandeliers. With a choice of either Murano glass or metal frames, all the designs are fitted with lead crystal drops as standard, which can be upgraded to Swarovski crystal if desired

## **Retro Murano Collection**

**pages 108-116**

This unique collection of wall lights is inspired by the archives of Italian designers from the 1950s, 60s and 70s

## **Massimo Tonetto Collection**

**pages 117-119**

A collection of more contemporary wall lights designed in Italy by the famous designer Massimo Tonetto and handmade in Venice

## **Art Deco Collection**

**pages 120-139**

Bella Figura's stunning new collection of Art Deco inspired wall lights are crafted out of solid Lucite and brass. They are available in a wide selection of contemporary metal finishes such as nickel, gunmetal or bronze

## **Classic Collection**

**pages 140-151**

A collection of classic English wall lights which are all hand-made at our workshop in Suffolk. Based on designs from historic English houses and our extensive archives, they are all available in a wide range of traditional and contemporary finishes

## **Florentine Collection**

**pages 152-175**

Beautiful timeless classics from Florence in the heart of Tuscany. Bella Figura's exclusive designs are hand-made for us by Florentine artisans out of metal and wood utilising skills and techniques handed down from generation to generation since the Middle Ages

## **Lantern Collection**

**pages 176-177**

Classic wall lights to complement Bella Figura's Lantern collection

## Wall Lights

# Table Lamps

## **Venetian Collection**

**pages 180-196**

Our extensive collection of beautiful Venetian table lamps is handmade out of the finest Murano glass and come in a range of colours. They are fitted with brass bases and tops which are available in a variety of complementary finishes. Many of the designs are transitional in style and can therefore be used in any room setting whether traditional or contemporary

## **Retro Murano Collection**

**pages 198-199**

Two table lamps inspired by the archives of Italian designers from the 1950s, 60s and 70s

## **Glass Collection**

**pages 200-201**

A range of evergreen designs – simple, elegant and timeless

## **Siena Collection**

**pages 203-215**

Bella Figura's ceramic table lamp range is based on antique Etruscan and Roman vases. Whilst the designs are classically inspired, they have a pared down style with a contemporary simplicity and elegance. Handmade in England, the range is available in 25 exclusive Bella Figura glazes, which have an exceptional lustre and depth of colour

## **Eglomise Collection**

**pages 216-225**

A range of classic table lamps utilizing the ancient French technique of Eglomise – painting fine glass on the inside. We offer 20 standard colours, but because of the versatility of this technique, if you are looking for an exact match to, for example, a fabric colour, we can supply these table lamps in any Pantone colour for a small surcharge. This range is handmade in our own workshop in Suffolk, so that manufacturing lead times can be as little as one to two weeks

## **Art Deco Collection**

**pages 226-246**

Bella Figura's stunning new collection of Art Deco inspired table lamps are hand-crafted in the UK out of the finest Italian marble

## **Classic Collection**

**pages 247-263**

A collection of classic English table lamps, which are all hand-made out of the finest raw materials in our workshop in Suffolk. Based on designs from historic English houses and our archives, they are all available in a wide range of finishes

## **Aegean Collection**

**pages 264-267**

A range of table lamps incorporating the beauty of marine sea shells. Manufactured in England, they are beautifully cast in solid brass by the lost wax method from original shells and mounted on Italian marble bases. These lamps are sold including specially designed co-ordinating silk laminated shades

Nero Marquina Marble

Marron Imperial Marble

Arabescato Marble

Rosso Alicante Marble

Crema Marfil Marble

Verde Imperial Marble

These are photographic reproductions of the actual colours. Whilst every care has been taken to make them as accurate as possible, they may vary slightly from the originals. If you require assistance with colour selection, please contact a Bella Figura showroom

## Classic Collection

Bella Figura's collection of classic English table and floor lamps are based on designs from historic English houses and our archives. Many of the designs are adjustable in height and all our adjustable designs now feature our patented locking ring (see below)

The entire range is hand-made at our factory in Suffolk out of solid English brass and the products are all available in a wide range of traditional and contemporary finishes such as polished brass, old English brass, antique brass (black), polished nickel or brushed nickel. We use silk flex as standard and solid brass bulb-holders. All our lamps are made to order and the manufacturing lead times vary according to the finish required, but we can fulfil your order in as little as one week. Our quality is the finest in the World and the entire range offers exceptional value for money

# Floor Lamps

## **Classic Collection**

**pages 269-275**

A collection of classic English floor lamps, which are all hand-made out of the finest English brass in our workshop in Suffolk. Based on designs from historic English houses and our archives, they are available in a wide range of finishes. All the height adjustable floor lamps now feature Bella Figura's patented locking ring (see below)

## **Venetian Collection**

**pages 276-277**

Two beautiful Venetian floor lamps which are hand-made out of Murano glass and come in a range of colours

## **Retro Murano Collection**

**pages 278-280**

Dramatic and stylish floor lamps inspired by the archives of Italian designers from the 1950s, 60s and 70s

Bella Figura's patented locking system for all adjustable Classic table and floor lamps

# Bathroom Lighting

Bella Figura's new Bathroom Lighting Collection is manufactured exclusively for us in Germany. The lights are made out of solid brass and plated to the highest standards in either chrome, nickel or gold. Many of the designs are available in a wide range of different sizes and can be used as either wall or ceiling lights

This is lighting of the highest quality, both in terms of the timelessness of the designs and the excellence of the materials that are used

For more information about the suitability of light fittings for use in bathrooms please also see our brief guide to IP ratings in bathrooms on page 298

## A Brief Guide to IP Ratings for Bathrooms in the UK

Great care needs to be taken when choosing bathroom lighting as the regulations are strict concerning the type of lighting fixtures which can be used

The following information is only a brief guide to what type of light fittings can be used in each part of a bathroom. This is not an installation guide and in the UK, reference should be made to the IEE Wiring Regulations (16th Edition) or a qualified electrician. In other countries, reference should be made to the local national regulations

Firstly, it is important to understand the rating by which bathroom (and some outdoor) lighting is classified. IP Rating stands for "Ingress Protection" and is always followed by two numbers. These two numbers refer to the level of moisture and water protection that a light fitting provides. It is important that the right light fitting with the appropriate rating is used in each part of a bathroom. The UK regulations split a bathroom into 4 zones as follows:

**Zone 0** - This is the area inside a bath or shower unit. Any light fitting used in Zone 0 must be low voltage (max 12v) and be rated at least IP67, which means that it is totally immersion proof

**Zone 1** - This is the area above a bath or shower unit to a height of 2.25m (7' 5") from the floor. In Zone 1 a minimum rating of IP44 is required

**Zone 2** - This is an area stretching 600mm (23½") from outside the perimeter of the bath or shower unit to a height of 2.25m from the floor. In Zone 2 an IP rating of at least IP44 is also required. In addition, it is good practice (but not mandatory) to treat the area around a wash basin, within a 600mm radius of any tap as also being in Zone 2

**Zone 3** - This is anywhere outside Zones 0, 1 & 2 and where no water jet is likely to be used for washing or cleaning purposes. No IP rating is required in these areas

For countries outside the UK, please refer to the local electrical requirements and standards

# Lamp Shades

Bella Figura's lamp shades are all hand-made in England. Our silk laminated shades are made using the finest dupion silk which is ideal for lamination and they are available in a vast range of over 170 colours

## **Melton Drum Shade** **pages 300-301**

A slightly tapered drum shade designed by Bella Figura. Available as either a silk laminated shade or as a traditional hand-made pleated silk shade

## **Walton Drum Shade** **pages 302-303**

A taller version of the Melton shade, the Walton shade is available as a silk laminated shade and is ideally suited to taller, slimmer lamps

## **Drum Shades** **pages 304-305**

The traditional drum shape in our more modern interpretation with a slightly lower height. Available only as a silk laminated shade in our wide range of dupion silks

## **Empire Shade** **pages 306-307**

Bella Figura's more contemporary Empire shades are silk laminated in our extensive range of dupion silks

## **Oval Shade** **pages 308-309**

Two modern silk laminated oval shades, which are ideal for use in halls and other tight spaces

## **Silk Shade** **pages 310-311**

Bella Figura's traditional silk lampshades are available as either an Empire or Melton Drum and can be stitched in a variety of pleats. They are all hand-made in Suffolk, England out of Antung silk

## **Silk Colours** **pages 312-315**
