UMBRIA PARASOL

The frames of our Umbria Parasols are constructed from the finest Eucalyptus timber which is kiln dried then treated with a natural timber sealer. The fabric is made from marine strength acrylic that is UV and fade resistant. The fabric is resistant to rotting and mildew and in addition is Teflon treated to provide water and soiling protection.

Rectangular £730

Round £795

- Solid Eucalyptus Wood.
- Stainless Steel Fittings.
- Acrylic Teflon treated fabric.
- Air Vent feature on every parasol.
- Bases available separately, please see index.
- Cover storage bag supplied as standard.

Umbria in Taupe,
with Salisbury
Lounger.

OPENING YOUR PARASOL

When opening the Parasol, pull out the ribs to ensure that they move freely, then gently pull on the cord to slowly raise the sliding hub upwards. Continue to raise until the fabric is taut and then insert the pin into the highest

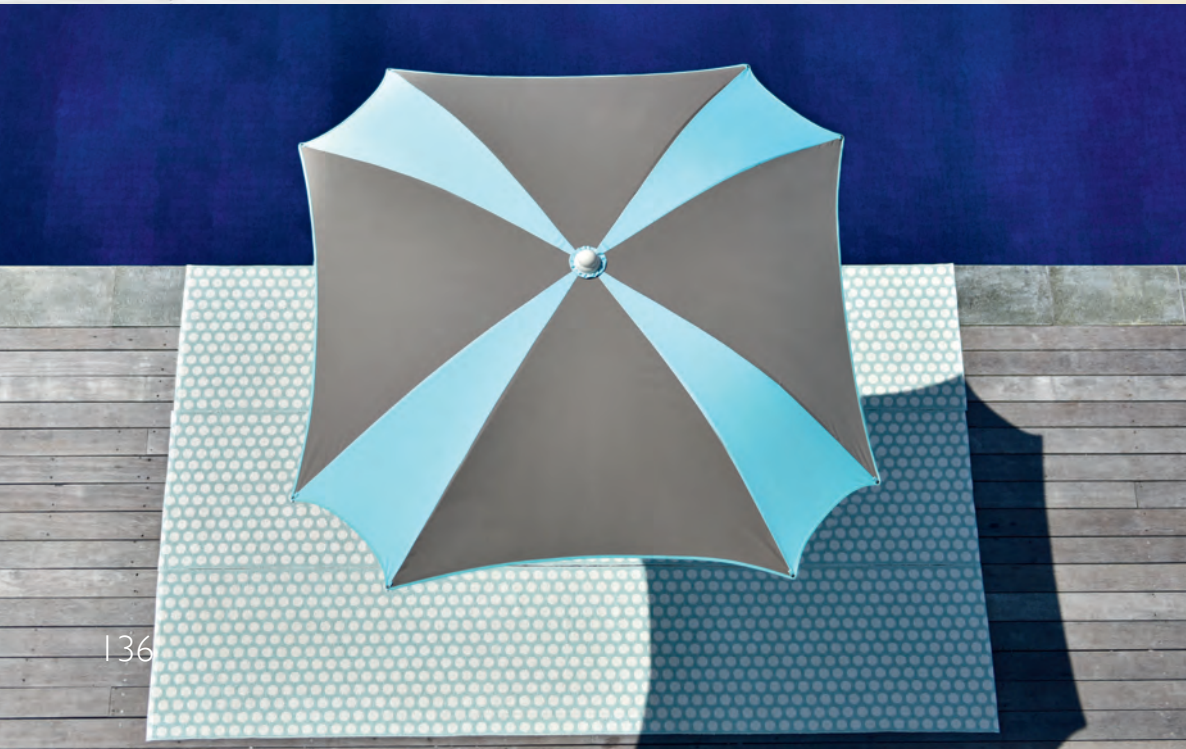

possible hole. A tautly erected Parasol will be stronger and will not allow the canvas to billow in the wind, which may cause the strut ends to break. Close the Parasol during strong or gusty wind conditions and cover with the PVC cover only when completely dry.

PARASOL FABRIC MAINTENANCE

To clean the fabric, open the Parasol, lay on its side and remove dirt using a soft brush with water. In order to protect the Teflon properties, use Indian Ocean Canvas Cleaner and do not Dry Clean.

Portofino with
Latitude Lounge
Chair.

PORTOFINO PARASOL

The Portofino Parasol is fully customisable to suit your personal style. With the option to have the two panels different colours, plus your choice of piping colour:

BESPOKE KITCHENS

Elevate open-air cooking to a full culinary experience with a bespoke Indian Ocean Outdoor Kitchen. We will create for you a kitchen that brings the entire cooking process, including spacious preparation surfaces, outdoors.

We offer a comprehensive process to design, build and install the perfect Outdoor Kitchen for you from initial concept to completion, specifying only the highest quality equipment and materials.

Our experts will work with you to design the perfect kitchen and deliver exhilarating outdoor experiences.

Our gleaming grills and burners are designed and manufactured to commercial standards and styled for a luxury aesthetic. The commercial heritage of the design allows the heat to be stabilised and released through the back of the grill and we only use brass burners and ceramic briquettes to ensure even heat distribution.

The contemporary outdoor kitchen elements are an innovative collection of units that will revolutionise your entire food preparation process outdoors. Thanks to the insulating system, the magnetic seal and the use of specially designed and patented materials, the sealed drawers are able to keep the temperature as long as you need, warm or cold. They are waterproof and secure from dust and bugs. Add a sink, taps and a fridge and your outdoor kitchen will be complete.

Alternatively, we offer appliances and storage elements separately if you choose to manage your own design and construction.

ELECTRIC SHADE

Bespoke Electric Shades offer outstanding protection from the sun, wind, rain and cold. This sophisticated aluminium pergola has a flat SUN and WATERPROOF roof which turns your terrace into a useable outdoor space – whatever the weather decides to do!

With an easy remote controlled operating system and silent working of the blades, you can continue your plans for relaxing or entertaining outdoors whether you need shelter from rain or shade from the heat of the midday sun. Choose the wind and rain sensor option for total peace of mind.

When closed, the blades form a waterproof roof in normal showers. A gutter system drains the rainwater away towards the columns. These patented blades are designed in such a way that the water is drained off to the sides, even if the blades are opened up immediately after a rain shower.

The sides can be fitted with a range of optional moveable wall elements; glass sliding doors, cedar sliding panels and many other features all tailored to your space. Choose from any RAL colour to blend into your home and garden. Add lighting, heating and a speaker system for total luxury.

BESPOKE FABRICS

To complement your furniture we offer a range of designer outdoor fabrics, giving you the opportunity to personalise your furniture like never before.

Visit us in person to select from the entire collections of Casamance, Dedar, Designers Guild, Osborne & Little, Pierre Frey, Ralph Lauren & Zimmer + Rhode. The collection is UV Proof, Chlorinated Pool Water Proof, Water and Stain Repellent.

All bespoke fabric cushions are made to order, lead times apply.
